

A diagram of a DL Folder Double Sided template. It shows a large rectangular area divided into two main sections by a vertical magenta line. The left section is a large white rectangle. The right section is a white rectangle containing text and instructions. The entire template is framed by a thick blue border. On the left side, there is a complex shape representing the folder's flap, also outlined in blue and magenta. The top right corner of the right section contains the title 'DL Folder Double Sided'. Below the title, there are three sections: 'Bleed Area' with a blue square icon, 'Trim/Fold' with a magenta square icon, and 'Safe Area' with a light blue square icon. Each section contains a brief explanation of its purpose. At the bottom of the right section, there is a reminder to delete or hide the layer.

DL Folder Double Sided

■ **Bleed Area**

Anything here will be trimmed off.
Remember to extend any colouring or
images into this 3mm bleed area.

□ **Trim/Fold**

Your artwork will be cut on the solid
magenta line. Any images or text
placed outside this area will be
trimmed off.

■ **Safe Area**

Keep all your vital information inside
the light blue area to avoid potential
trimming issues.

**Remember to delete or hide
this layer.**
